

# Flexible Substrate Research Group

## (Nakada/Furukawa/Yuki/Koden Group)

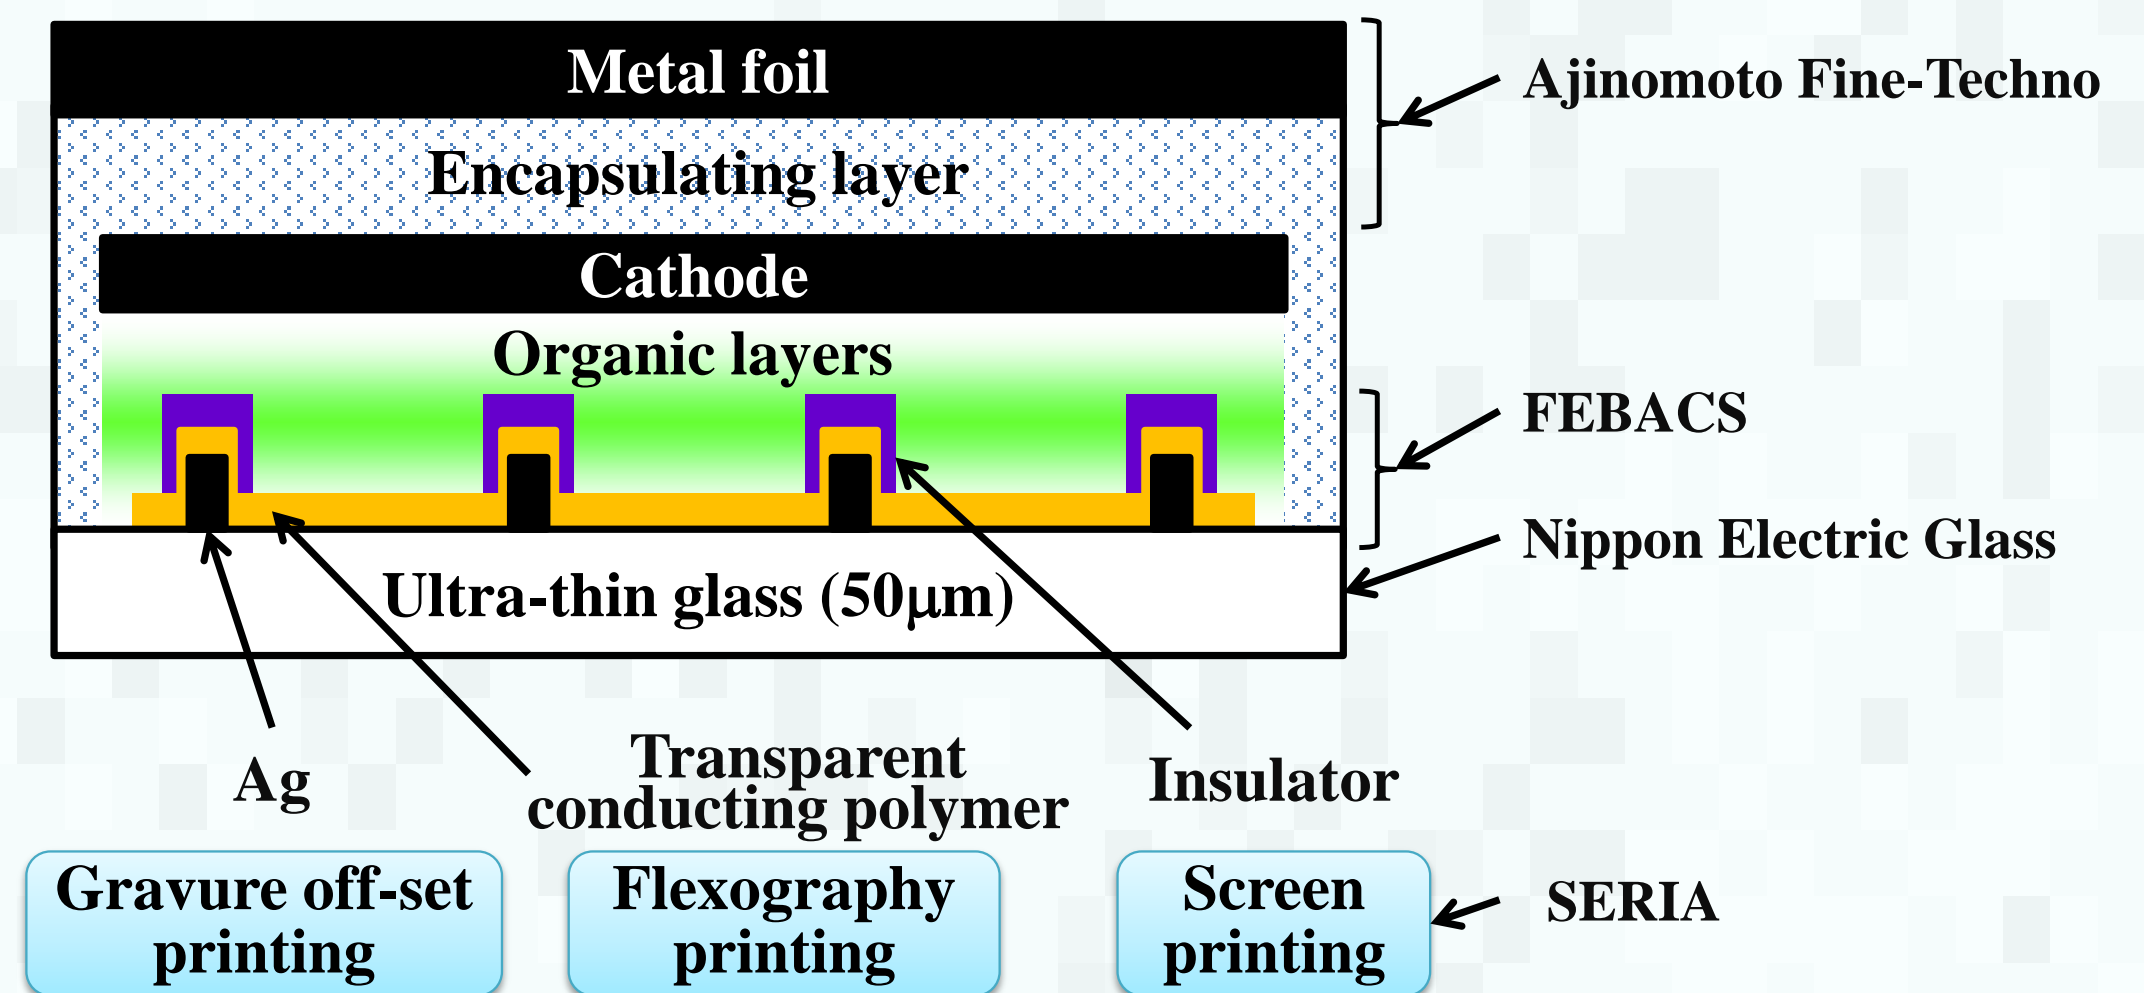

### Printing & R2R

#### Non-ITO transparent electrode fabricated by printing technologies

- Flexible OLED lighting on ultra-thin glass (thickness 50μm/Nippon Electric Glass) with non-ITO transparent electrode fabricated by printing technologies

Substrate size : 50mm × 50mm  
Emission area : 32mm × 32mm

“Printable Electronics 2017”  
(February 15-17, 2017, Tokyo Big Sight)
